

Ojaván Aromatherapy Bath Salts

Ojaván Bath Salts form as the healing waters of **the Great Salt Lake**, America's Dead Sea, evaporate to create billions of salt crystals. Millions of years old, this salt has been named white gold as it has accumulated an eternity of sunlight and natural energy. Each crystal contains over **70 trace minerals and elements essential to healthy skin and moisture balance**. Ojaván bath salts are pure and unprocessed.

For centuries, salts have been used to remove toxins from the body. By adding Ojaván Aromatherapy bath salts to your bath, **you revitalize the body and mind** by hydrating, detoxifying, soothing skin conditions and strengthening the immune system.

Ojaván Aromatherapy Bath Salts may **aid those suffering from various skin conditions** such as eczema, psoriasis, acne, warts and athletes foot. Bathing in Ojaván bath salts may also provide relief from insect bites, poison ivy/oak, blisters, wounds, burns, sunburn and other skin afflictions.

Ojaván Aromatherapy Bath Salts are **delicately scented with pure unadulterated essential oils** and are available in seven unique aromas, each with individual therapeutic properties. These oils aid in rejuvenating your body and soul, helping you relax and become energized. Each jar is carefully paired with a hand-selected crystal to stimulate and compliment your Ojaván experience. Our Crystals come from around the world and work holistically with the salts. **Each crystal has its own unique vibration**, that vibrations power is matched to the pure unadulterated essential oils' properties to help guide you through your day. Carry or showcase your crystals to benefit from their properties. Even if you don't subscribe to the holistic value of these stones, you will still have the beautiful semi-precious stone to adorn your life.
