

Ojaván Massage Oil

Helki Pampered Touch massage oil is rich and luxurious and glides with ease. Helki leaves your skin soft, smooth, and moisturized, with no greasy or sticky residue. Our massage oil is **100% All Natural & Certified** Vegan with an indefinite shelf life. No more problems of massage oil going rancid and no more stained or sour sheets.

It is great for all skin types. This amazing massage oil comes unscented. We offer a scented blend with our **Pure Unadulterated Essential Oil** at no additional cost.

Helki contains Fractionated Coconut Oil, Jojoba Oil, Meadowfoam Oil, and Vitamin E. Each of these ingredients offer **unique benefits**.

Fractionated Coconut Oil: is a fraction of the whole oil. Coconut oil is very heat stable. Because of its stability, it is slow to oxidize and thus resistant to rancidity. It is a great oil for moisturizing and serves as a **protective layer**, helping to retain the moisture in your skin. It also acts as a mild oil suitable for those with inflamed and irritated skin, and those with skin sensitivities.

Jojoba Oil: is the liquid wax produced in the seed of the jojoba (*Simmondsia chinensis*) plant, a shrub native to southern Arizona, southern California and northwestern Mexico. Jojoba oil is a great moisturizer that spreads and absorbs nicely into the skin. Because Jojoba is not an oil but rather a wax ester, its shelf life and stability is considerably higher than most oils and rancidity is rarely a concern.

Meadowfoam Oil: is pressed from the seeds of Meadowfoam (*Limnanthes alba*), a plant which received its name because of its resemblance while in bloom to the white foam blowing on the ocean. It has proven to be **invaluable in the body care industry**. It has a non-greasy feeling and soaks into the skin. It forms a moisture barrier and will assist the skin with preventing moisture loss. Meadowfoam oil contains over 98% long-chain fatty acids, and has higher quality triglyceride levels when compared to other vegetable oils. It also has amazing moisturizing and rejuvenating capabilities and is very stable helping to preserve the shelf life of the other natural oils.

Vitamin E: is used to refer to a group of fat-soluble compounds that include both tocopherols and tocotrienols. Vitamin E has many biological functions. The antioxidant function is considered to be the most important function vitamin E is known for. **Vitamin E oil provides the skin with necessary moisture as well as antioxidants for intense healing**. It also prevents and repairs free radical damage. Great for preventing rancidity in skin care products and cosmetics and it acts as an antioxidant.

Ojaván Muscle Repair

Hitto RX Muscle Repair is 76% certified organic & 100% natural.

This unique deep tissue massage oil is great for spa and home use. Whether relaxing from a long day, hard workout, or recovering from an injury, Rx Muscle Repair will relax and soothe tight muscles with no sticky residue and no lingering unpleasant aroma. Shake well before use. Apply Hitto liberally to muscles with massaging circular motions. Enjoy the cooling sensation as Hitto rejuvenates and helps repair sore tired muscles. Hitto absorbs into the skin, providing your muscles a transition from cool to hot leaving the muscles soothed and relaxed. A must have that lasts for hours.

Wash hands thoroughly after use. Avoid contact with eyes & mucus membranes.

Contains: Organic Aloe is used for soothing the skin, and keeping the skin moist to help avoid flaky scalp and skin in harsh and dry weather. Aloe Vera is a great moisturizer and useful in the treatment of wounds. **Meadowfoam** is pressed from the seeds of Meadowfoam (*Limnanthes alba*), a plant which received its name because of its resemblance, while in bloom, to the white foam blowing on the ocean. It has proven to be invaluable in the body care industry. It has a non-greasy feeling and soaks into the skin. It forms a moisture barrier and will assist the skin with preventing moisture loss. Meadowfoam oil contains over 98% long-chain fatty acids, and has higher quality triglyceride levels when compared to other vegetable oils. It also has amazing moisturizing and rejuvenating capabilities and is very stable in helping to preserve the shelf life of the other natural oils. **Menthol** is an organic compound from peppermint or other mint oils. Menthol has local anesthetic and counterirritant qualities. Great as a topical analgesic to relieve minor aches and pains, such as muscle cramps, sprains, headaches and similar conditions. **Capsicum** commonly called chili pepper, red or green pepper, or sweet pepper. A topical medication for stimulating circulation and reducing pain. **Peppermint Essential Oil** provides relief from pain, reduces swelling and improves blood circulation with its cooling sensation. **Basil Essential Oil** provides relief from pain, improves blood circulation, and enhances the luster of dull looking skin. **Black Pepper Essential Oil** relieves cramps, muscle pulls, & spasms. It is warming, stimulating and improves circulation, thereby giving immediate relief in rheumatism and arthritis. **Roman & German Chamomile Essential Oils** are a tonic in nature, i.e. they tone up skin, muscles, internal organs etc. **Cinnamon Essential Oil** helps in removing the stiffness of muscles. It relieves pain and stiffness of muscle and joints. Increases blood circulation, helping to reduce pain. **Citronella Essential Oil** relieves spasms of the muscles, sedates inflammations, and heats up muscles (increases sweating and promotes removal of toxins and other unwanted substances). **Eucalyptus Essential Oil** helps relieve pain from muscles and joints as it provides a cooling and refreshing effect. **Helichrysum Essential Oil** promotes cell health and also encourages recycling of dead cell and production of new cells. This helps in the growth of the body. Helichrysum Oil makes the skin smooth, soft and helps it retain moisture. It prevents dehydration and cracking of the skin. It is also effective in reducing inflammations. **Ginger Essential Oil** is often used in traditional medicine to reduce inflammation. It is analgesic in nature and reduces pain caused by muscle aches, arthritis, rheumatism, headache, migraine, etc. **Grapefruit Essential Oil** is involved in the removal of unwanted and toxic substances from the body. Grapefruit Oil ensures a good health of lymphatic system and boosts it up, thereby freeing the body of toxins and fighting problems like cellulite, blood urea, rheumatism, arthritis, gout, etc. **Juniper Essential Oil** promotes and improves circulation very well. It also helps in the removal of toxins like uric acid from the body. Both these properties help fight ailments like rheumatism, arthritis, gout, renal calculi etc. Which are related with improper circulation and accumulation of toxins in the body. Also relieves swelling. **Lemongrass Essential Oil** reduces pain and inflammation. Lemongrass Essential Oil helps relieve pain in muscles, joints. It promotes the contraction of muscles, skin, and blood vessels, thereby increasing the flow of blood through vessels. **Pine Essential Oil** is an analgesic and hence it is a good remedy for people suffering from joint pain, arthritis, and rheumatism. Pine essential oil is antiseptic and hence it is used in treating sports injuries, and muscle injuries. **Ravensara Essential Oil** is an effective remedy for many types of pain including, headache, muscular and joint pain, etc. It uplifts mood, relaxes the mind and invokes energy and the feeling of hope and joy. Essential Oil of Ravensara facilitates the removal of waste substances and toxins from the body. **Rosemary Essential Oil** relieves pain which has resulted in its extensive usage in headaches, muscle pains, sore muscles, rheumatism and even arthritis. It stimulates mental activity and is a good remedy for depression, mental fatigue and forgetfulness. **Spearmint Essential Oil** works well as an antiseptic for wounds and muscles. Protecting them from septic and other infections, helping them heal faster. Spearmint comes from its component, Menthol, which has a relaxing and cooling effect on the nerves and muscles, which helps relax contraction in the case of spasms. Thereby giving effective relief from aches, muscle pulls and cramps. **Oregano Essential Oil** gives you protection against most of the diseases caused by bacteria, viruses, and fungi. Oregano protects you from the damages done to the body by the free radicals or oxidants, neutralizes the free radicals and repairs the damages already done. **Camphor** is found in the wood of the camphor laurel, a large evergreen tree commonly found in Asia. Camphor is readily absorbed through the skin and produces a feeling of cooling, similar to that of menthol, and acts as a slight local anesthetic and antimicrobial substance. **Kosher Vegetable Glycerin** improves smoothness and glide within this massage oil. **Witch Hazel** extracts, from the bark and leaves, are used for treating bruises and reducing swelling by shrinking and contracting blood vessels back to their normal size. **Phenoxy-ethanol** is an organic chemical compound. Used as a broad spectrum preservative. **Carbomer** is a molecule expanded through Organic Chemistry used as a thickening agent. **TEA** is required to adjust the pH and thicken the product to a stable viscosity. **Tetrasodium EDTA** enhances the efficiency of preservatives. **Citric Acid** is an organic acid. It is a natural preservative.
